

K-love was there for us in times of struggle and joy. It's not just music. The message of Christ's love, the reality, the prayer being sent through the radio brings such comfort and guidance. With out K-love this world will be at a loss. Live's are changed. My life was changed. How many people can say that their life was changed for the better from another radio station? Please don't let k-love disapear from all our lives. Thank you.
